

Noor : The fashion society

Fashion is a very subjective term.

We, at NOOR believe that Fashion is a form of Art, it enhances one's beauty and helps people to bring out the best version of themselves.

It helps people to be comfortable in their own skin and provides them with confidence to stand out in the world.

Fashion is that wand of Fairy godmother which transforms people's outward appearance and unveils the inner beauty.

Our Aim at Noor is to provide a platform to anyone who is interested in Fashion, be it modelling, hairstyling, makeup or photography.
