

Promethean : The fine art society

Promethean, the fine arts society has received a lot of appreciation and won various prizes for their commendable art work this year. From decorating the college for various events like Bhagat Singh Jayanti and our annual fest Dastaan'19 , the group has worked tirelessly. We also provided other societies with artistic assistance without any hesitation. And to top it all off our team members enjoyed Harlem'19 our theme for this year's fest the most. It allowed us to explore street culture and public display of art freely without any restriction. We achieved this through some great teamwork and the unmatched talent of our artists ! We hope to win many more events next year , till then you can be on the look out for team Promethean's never-ending creations !
